RECENT WORK EXPERIENCE

Developer

Radiance Photography Studio | 2021 → present
Designed and built React frontend using a custom API to pull image content from the Cloudinary CDN. Also built an accompanying app for the easy filling and generation of branded stationery.

React // NodeJS

Roots PBC | 2021 → 2021
Designed and built React/Vite site, that allows users to explore an interactive restaurant menu. Uses a delivery/payment API called Shipday to handle orders.

Shopify Developer

Shadz Eyewear | 2019 → 2020
Designed and built eCommerce website using Shopify's Storefront API as an eCommerce engine. Used both design cues and tech solutions to create a seamless shopping experience.

Shopify Webmaster

Bike Effect | 2017 → 2019
Maintained and updated website and product cataglog through Shopify dashboard. Also used HTML/CSS and Ruby/Liquid to make desired customizations.

EDUCATION

2019 → 2020
React Bootcamp - Instructor: Colt Steele
Modern Javascript Bootcamp - Instructor: Colt Steele

2009 → 2013
California State University, Northridge
BA Philosophy

Results-oriented developer focused writing excellent Javascript. Over 3 years experience writing performant fullstack applications for the web. Currently seeking to join a team to collaborate with other creative developers.

TECH STACK

JAVASCRIPT + TYPESCRIPT
NODEJS + EXPRESS
REACT + NEXT/GATSBY
CSS + SCSS + CSS-IN-JS
LINUX + BASH CLI

RELEVANT SKILLS

- GraphQL & Rest API implementation
- NodeJS and Express backend
- MySQL and MongoDB
- Unit testing with Cypress and Jest
- Responsive web application design
- Git workflows and branch management
- Agile workflow through Kanban
