

# James Walker

JavaScript Developer

Santa Monica, CA

me@jameswalker.dev

213.973.3667

## RECENT WORK EXPERIENCE

### Senior Web Developer

**Nerrative | Apr 2023 → Present**

Lead cross-functional team of web developers and designers in building a complete web presence. Provided code review and mentorship for junior developers. Standardized the team's git workflow and commit/PR style.

Next.js TypeScript React TailwindCSS

NX Monorepo Storyblok Cloudinary

### Web Developer

**Lidvizio | Mar 2023 → Aug 2023**

Built features for a web application that leverages AI to help municipal organizations recycle more effectively. Built internationalization system for entire application. Built item search functionality using Algolia.

React TypeScript NX Monorepo MongoDB

MobX i18next Material UI

### Web Developer

**Embodied Learning Institute | Apr 2022 → Apr 2023**

Designed, built, and maintained web presence for an educational therapy organization. Authored and documented content management experience for non-technical stakeholders.

Next.js SCSS Square Contentful

### Web Developer

**Radiance | Dec 2021 → May 2022**

Built several admin-facing tools including e-signature contract building, a branded stationery generator, and client management software.

Next.js SCSS Prisma Supabase Cloudinary

Web developer focused on the front end. Five years experience writing performant and accessible applications for the web. Currently seeking to join a team of other driven developers.
