Javascript Developer

James Walker

Santa Monica, CA

me@jameswalker.dev

213.973.3667

Results-oriented developer focused writing excellent JavaScript. Five years experience writing performant full-stack applications for the web. Currently seeking to join a team of other driven developers.

RECENT WORK EXPERIENCE

Web Development Team Lead

Nerrative | Apr 2023 → Present

Design, build, and maintain front-end web applications. Working closely with other teams to create a unified experience from web to desktop platform. Leadership of front-end development team: providing code review, standardizing git workflows, and managing task assignments.

`Next.js` `TypeScript` `React` `TailwindCSS`
`NX Monorepo` `Storyblok` `Cloudinary`

Web Developer

Lidvizion | Mar 2023 → Aug 2023

Build features for the web portion of an application that leverages AI to help municipal organizations recycle more effectively. Tasks focused strongly on localization and accessibility.

`React` `TypeScript` `NX Monorepo` `MongoDB`
`MobX` `i18next` `Material UI`

Web Developer

Embodied Learning Institute | Apr 2022 → Apr 2023

Design, build, and maintain web presence for an educational therapy organization. Authored and documented content management experience for non-technical stakeholders.

`Next.js` `SCSS` `Square` `Contentful`

Web Developer

Radiance | Dec 2021 → May 2022

Create several web applications for event planning and photography services. Also built multiple tools for internal use including email marketing, invoicing, and branded stationery generation.

`Next.js` `SCSS` `Prisma` `Supabase` `Cloudinary`
